

# Wallpaper or Shared drive is missing

The computer is not sync to our AD.

- Go to RMS and to the computers terminal. (this should fix the issue)

```
#cmd  
gpupdate /force.
```

OR

- Sign out and sign in user again OR
- Restart Computer OR
- Run the command in powershell.

```
#PS  
gpupdate /force.
```

- If the powershell command above gives you error. Check if the AD are in sync.

```
Repadmin /replsummary
```

- If there is an issue. Escalate the issue to your supervisor.
